DATA ITEM DESCRIPTION

Form Approved
OMB No 0704-0188

TITLE	2 IDENTIFICATION NUMBER
Quality Inspection Test, Demonstration, and Evaluation Report	DI-QCIC-81200

3. DESCRIPTION/PURPOSE

3.1 The purpose of the Quality Inspection Test, Demonstration, and Evaluation Report is to provide data consisting of the required tests, demonstrations and evaluations required for a manufactured or rebuilt hardware item under contract. The hardware item may consist of a part, component or equipment as specified in the Product Quality Assurance Test, Demonstration and Evaluation Plan (DI-QCIC-81199). (Continued on Page 2)

910503	A/SLCET-RE		

7. APPLICATION/INTERRELATIONSHIP

7.1 This Data Item Description contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

7.2 This Data Item Description is related to DI-QCIC-81198 "Product Assurance Quality Program Plan" and DI-QCIC-81199 "Product Quality Assurance Test, Demonstration, and Evaluation Plan." When DI-R-5297A "Quality Program Plan (QPP)" is required by the contract, this report is associated with that plan. (Continued on Page 2)

10. PREPARATION INSTRUCTIONS

10.1 Reference Documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices and revisions, shall be as specified in the contract.

10.2 Format. The Quality Inspection Test, Demonstration, and Evaluation Report shall be in a contractor selected format. All data shall be clearly presented and of readable size on standard 8 1/2 x 11 inch bond paper.

10.3 General. The Quality Inspection Test, Demonstration, and Evaluation Report shall be complete, accurate, and readable and shall provide sufficient data to determine that the hardware item meets all the requirements delineated in the contract.

10.3.1 Content. The Quality Inspection Test, Demonstration, and Evaluation Report shall consist of the following:

a. Tracking the approved test plan and specified procedures in all categories.

b. Citing detailed qualitative and quantitative data results such as test categories, test conditions, test methods employed, and types of inspection and test equipment used during the test or inspection.

(Continued on Page 2)

11. DISTRIBUTION STATEMENT

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

3. Description/Purpose (Continued)

3.2 The test data is used to evaluate the hardware item against specified requirements cited within the specifications and other procurement documents of the contract.

---

7. Application/Interrelationship (Continued)

7.3 This data item supersedes DI-R-1724 "Quality Inspection Test, Demonstration and Evaluation Report."

---

10. Preparation Instructions (Continued)

c. Citing sample size or quantity submitted for test or inspection as specified in contractural documents.

d. Reflecting achievements attained against contracturally required levels of reliability and/or maintainability.

e. Reflecting, conversely, test failures or failing to meet such specified levels (above) along with proven resolution rectifying such failure or problem.

f. Submitting interim test reports, if required by contract, to cover particular demonstrations of specific hardware items during a specified time frame(s).
